

Discover Your Future with Dual Credit at Sheridan College!

Step into college life while still in high school through Sheridan's Dual Credit program—where you can earn both high school and college credits at no cost. Whether you're curious about media, health, technology, or skilled trades, our hands-on courses give you a head start on your career journey and a taste of the college experience. It's more than a course—it's your launchpad to confidence, opportunity, and success. Talk to your guidance counsellor today and find out how to get started!

Sheridan's Dual Credit Courses

Dive into these hands-on, creative, and career-launching courses, each designed to ignite your curiosity and connect you with real-world skills.

Davis Campus - Brampton

Welding: Get Fired Up with Oxy-Fuel Welding and Cutting! Discover the basics of oxy-fuel welding and cutting in a fun, hands-on course. Learn how to safely set up and use real welding equipment through interactive lessons, live demos, and exciting lab activities. Build skills, spark creativity, and explore the world of metalwork!

Criminology: Are you a true crime fan or just curious about what shapes our justice system? This course offers a deep dive into crime theories, media influence, and how society defines right and wrong. *Laptops recommended.*

Medical Admin Procedures 1: Discover the inner workings of a medical office! Practice real-world tasks like scheduling, triaging, and medical correspondence. You'll be on your way to helping any clinic run smoothly and support health care teams.

Trafalgar Campus - Oakville

Theory of Makeup and Colour: Unleash your inner artist! Study the science and creativity behind makeup, discover colour theory, and learn how to highlight every face's natural beauty. Perfect for aspiring makeup pros and beauty enthusiasts.

Hazel McCallion Campus - Mississauga

Nutrition for Well Being: Food is fuel—learn how it powers our bodies and minds. From diet myths to disease prevention, you'll decode labels, create healthy meal plans, and discover what it really takes to eat well!

Building Materials: Ever wondered what goes into building a house? This course gives you the scoop on materials, tools, and construction tricks. Roll up your sleeves to sketch, research, and even build a big model house section by hand! Perfect for hands-on learners with a knack for design.

Marketing: Dive into the fast-paced world of marketing! Uncover the secrets of consumer behaviour, branding, and digital trends. Get ready to research, strategize, and create buzz-worthy campaigns. *Laptops recommended.*
