Step into college life while still in high school through Sheridan's Dual Credit program—where you can earn both high school and college credits at no cost. It's more than a course—it's your launchpad to confidence, opportunity, and success. Talk to your guidance counsellor today and find out how to get started! **Dive into these hands-on, creative, and career-launching courses, each designed to ignite your curiosity and connect you with real-world skills.**

Dual Credit Courses - Winter 2027

Hazel McCallion Campus - Mississauga

Advertising: Dive into the world of big ideas and bold campaigns! Learn what makes ads tick, explore agency life, and practice pitching your own concepts. Bring your creativity and get ready to shine! *Laptops required.*

Architectural Drafting: Bring your design dreams to life! Discover the must-know digital tools of modern architects and construction pros. You'll create cool 2D blueprints and 3D models using AutoCAD and Sketchup, turning ideas into eye-catching, real-world projects.

Child and Youth Development: Explore how kids grow—from before birth through adolescence! Learn about physical, emotional, social, and cognitive development, and discover what shapes who we become. Experience unique assignments, including a virtual child simulation! Build skills in communication, critical thinking, and problem solving—perfect for anyone interested in working with children and youth. *Laptopsrequired.*

NEW **Food Microbiology:** Ever wondered what's really happening in your food? Explore the microscopic world of bacteria, yeasts, and molds while learning about food safety, sanitation, and fermentation. Use microscopes, run lab experiments, and make foods like bread, yogurt, and fermented vegetables in this hands-on science course.

Medical Terminology: Learn the Language of Healthcare! Break down complex medical terms, understand their meaning, and pronounce them with confidence. Explore fascinating facts about the human body and see how these skills support real healthcare teams. Perfect for anyone considering roles like medical office assistant, PSW, nurse, paramedic, transcription, or health administration. Build a strong foundation for your future in healthcare! *Laptops required.*

Trafalgar Campus - Oakville

Sound Design: Sound is everywhere —are you listening? Discover how to record, edit, and shape audio for film, music, and beyond. Get creative in the lab and make your own digital masterpieces!

Videography: Get behind the camera and bring your stories to life as you learn the art of videography—hands-on with lighting, sound, editing, and more! Whether you're flying solo or teaming up, you'll create awesome short videos while mastering the skills to become a visual storyteller and media pro.
